STRENGTHENING EMERGENCY RESPONSE

# When *Every* Mile Matters.

*Whether fifty miles up the Southfork or at a rollover on the Meeteetse highway, you count on excellent care and rapid response.*

# EVERY MILE MATTERS.

What began as a volunteer effort has become a professional paramedicine program serving residents and visitors across a 5,000 square mile area in Park County alone—often providing the very first medical care a patient receives.

Many patients begin their healing journey in the back of an ambulance. As the only Regional Trauma Center in the Big Horn Basin, Cody Regional Health delivers advanced stabilization and coordinated care, strengthening emergency response across the region.

Our community depends on us—and right now, we need your help. Emergency calls are rising, transport distances are long, and our ambulance fleet needs continual attention and updating to ensure reliable service life.

# A NEW AMBULANCE CANNOT WAIT.

It is not simply an upgrade—it is a lifeline. When someone suffers a heart attack miles from town, when a child is injured on the highway, when a neighbor collapses at home, the ambulance and its crew are the first and most critical medical resource. If that ambulance fails, response is delayed. And delays cost lives.

High mileage, aging equipment, and increasing maintenance needs put reliability at risk. In a region where help may be 100 miles away, a mechanical failure is not an inconvenience—it is a threat to patient safety.

**5,000** SQUARE MILES covered in Park County alone.

*Your gift ensures high quality care remains available close to home—today and for years to come.*

The Cody Regional Health Foundation is raising \$350,000 to purchase a fully equipped, rural ready ambulance serving the hospital district in and around Cody and Meeteetse. Every contribution, large or small, helps preserve limited operating funds for essential services while ensuring our EMS team has the reliable, modern equipment they need.

Through your support, you help safeguard the people who matter most—your family, your neighbors, and every traveler who depends on this community. The need is real and the window is urgent. Your generosity can help place a new ambulance on the road, ready to respond instantly to the next emergency—when every second can change the outcome.

## YOUR SUPPORT WILL:

- Reduce response times
- Improve reliability on long-distance transports
- Enhance patient outcomes with updated equipment
- Increase safety for patients & EMS crews
- Expand capacity during simultaneous emergencies or severe weather

**GOAL: \$350,000 · A RURAL-READY AMBULANCE**

The Cody Regional Health Foundation exists to provide vital philanthropic support to Cody Regional Health. Gifts to this campaign can be made at [WWW.CRHGIVE.ORG](http://WWW.CRHGIVE.ORG) or by check to Cody Regional Health Foundation, 707 Sheridan Avenue, Cody, WY 82414.
