Doug McMillan, Chief Executive Officer

The Cody Memorial Hospital Association Board addressed at a meeting held in January, 1940 “that due to a recent contribution that dwarfed any other gift, the board of directors were now assured they could commence construction of the finest hospital in any town the size of Cody in the United States, if not the entire world.”

This comment was made in the Cody Enterprise, 75 years ago by the Cody Medical Association Board of Directors after receiving a gift of \$50,000 by W. R. Coe, which increased the funds raised to \$68,200 allowing the board to move forward with the construction of the new hospital in Cody.

The article addressed “building the new hospital was an ambitious dream; those who dreamed it have been exposed to the scoffs of the doubters, whose ranks are continually shrinking both in size and vociferousness, and who usually cry, impossible, whenever any ambitious project has been undertaken in Cody.”

I would like to extend a special thanks and tribute to Mr. W. R. Coe and the MANY community leaders who undertook such an ambitious dream. The new Cody Hospital required great courage and support on the part of many men and women!

Fast forward 75 years...WPH continues to be a progressive healthcare organization, by ensuring our facilities and services meet the needs of our patients.

Thanks to our Board of Trustees and Leadership, we have now obtained our dream of completing our 10 year Facility Master Plan that began in 2006. Please refer to the Construction Update on page 24 to read more on this plan.

Today, not unlike the Cody Memorial Hospital Association thought 75 years ago, we feel that West Park Hospital is the finest Critical Access Medical Facility in any town the size of Cody across the country.

The celebration of our 75th anniversary is a perfect time to reflect on what has made WPH one of the most highly regarded rural health organizations in the country. The answer is simple – our people. Healthcare is always changing. The good news is WPH is changing as well.

We are seizing the opportunity to change the old ways of doing things, and coming up with new approaches to better patient care. At WPH, we are continuously working on ways our staff can enhance our patients experience to ensure it is a positive one.

We are pleased to present our 2015 Report to the Community sharing highlights from the past year. Please enjoy seeing some of the old healthcare photos compared to current day photos.

The WPH staff, physicians, trustees, and leadership are thankful for the support we have and continue to receive from the residents in Park County and the Big Horn Basin.

Doug McMillan, Chief Executive Officer

Melisa Fraser, RN, Board of Trustees Chair

Melisa Fraser, RN, Board of Trustees Chair

History of West Park Hospital - 1936 to Now

'36 ♦ Organization of the Cody Memorial Hospital Association

'54 ♦ Bids opened and contracts awarded for the construction of Medical Office Building

'67 ♦ Formation of a tax-supported hospital district

'39 ♦ Groundbreaking ceremonies for construction of the Hospital

'55 ♦ Hospital renamed W. R. Coe Memorial Hospital Center in Honor of W. R. Coe
♦ Installation of equipment begins

'70 ♦ Intensive Care/Coronary Unit

'40 ♦ 1st Cody Hospital open house to public
♦ 1st Baby born in Hospital
♦ W. R. Coe presented mobile x-ray unit and fracture table to the Hospital

'56 ♦ Medical Office Building completed

'74 ♦ Dedication and Grand Opening of West Park County Hospital - Medical staff of 16

'41 ♦ Recorded 1,000 patients since the opening of the hospital

'57 ♦ Physical Therapy Dept. under full operation with modern ultrasonic therapy

'75 ♦ American Red Cross volunteer organization officially becomes West Park Hospital Auxiliary

'48 ♦ Marked 1,076 out-patients treated in emergency operating room
♦ Addition of 2nd floor ... 50 beds, 6 cribs, and 12 bassinets
♦ Nurses' cottages completed
♦ Third floor completed

'58 ♦ American Red Cross Gray Ladies trained and prepared for earliest volunteer duties

'78 ♦ Resident treatment program organized for chemical dependency center in old hospital building

The Area's Best Physicians

Dr. Courtney Spence, DO, performs a check-up on a patient.

New Providers...

COURTNEY SPENCE, DO

Dr. Spence specializes in Internal Medicine and has a board-certification in Internal Medicine. She joined the West Park Hospital team September, 2015.

ABOUT

Our specialists apply scientific knowledge and clinical expertise to the diagnosis, treatment, and show compassionate care of adults across the spectrum from health to complex illness. When it comes to solving puzzling diagnostic problems their expertise can be heavily relied upon.

Internists are equipped to deal with whatever health concerns a patient brings. They are specially trained to solve complex diagnostic concerns and can handle severe chronic illnesses and situations simultaneously. They also provide patients with an understanding of wellness (disease prevention and the promotion of health), women's health, substance abuse, mental health, as well as effective treatment of common problems of the eyes, ears, skin, nervous system and reproductive organs.

Internal Medicine

NANCY WINKLER, FNP

Nancy Winkler specializes in internal medicine and wound care. She is board certified as a Family Nurse Practitioner and holds national certifications in Wound, Ostomy and Continence Nursing.

CARING FOR YOU FOR LIFE

In today's complex medical environment, internists take pride in caring for their patients for life -- in the office or clinic, during hospitalization and intensive care, and in nursing homes. When other medical specialists, such as surgeons or obstetricians, are involved, they coordinate their patient's care and manage difficult medical problems associated with that care.

CONTACT

WPH Internal Medicine Specialty Clinic
424 Yellowstone Avenue, Suite # 230
Cody WY 82414

Phone: (307) 578-2975

Pediatrics

PETER SIDOR, MD

Dr. Sidor is a Board Certified Pediatrician and a graduate of Saint Louis University School of Medicine. He joined the West Park Hospital team September, 2015.

LAURIE HIPWELL, CPNP

Laurie Hipwell is a Certified Pediatric Nurse Practitioner and a graduate of Medical University of South Carolina. She joined the West Park Hospital team September, 2015.

ABOUT

West Park Hospital's Pediatric Clinic specializes in the prevention and treatment of illness in newborns, infants, children and adolescents. Our team of providers, nurses and staff collaborate with specialists in the area to provide the most comprehensive care for your child and, as a result, peace of mind.

CONTACT

OB/GYN

DEBRA BOWMAN, MD

Dr. Bowman has been practicing in Cody since 2012 and has over 20 years of experience in Obstetrics and Gynecology. She joined the West Park Hospital team October, 2015.

ABOUT

West Park Hospital's OB/GYN provides comprehensive obstetric and gynecologic services for every stage of a woman's life, from the first gynecological exam, to the first pregnancy, through menopause and beyond. But we're also here for more than your clinical needs; we're here to provide preventative care and education for overall wellness and health. We're conveniently located at West Park Hospital's Cathcart Center so you're always close to home.

Construction Update

West Park Hospital is excited to announce the completion of our Bridge to the Future project that began in 2014. The Bridge to the Future project was the last phase of the 10 year Facility Master Plan that included the completion of the Modernization Project in 2012 and the Cathcart Health Center project in 2009.

The Facility Master Plan was a very progressive plan set in 2006. The plan was designed to position WPH for continued and future growth for years to come. A lot has changed in the last 75 years regarding health care in Cody and the hospital in Cody, but our appreciation for our hospital today has not changed.

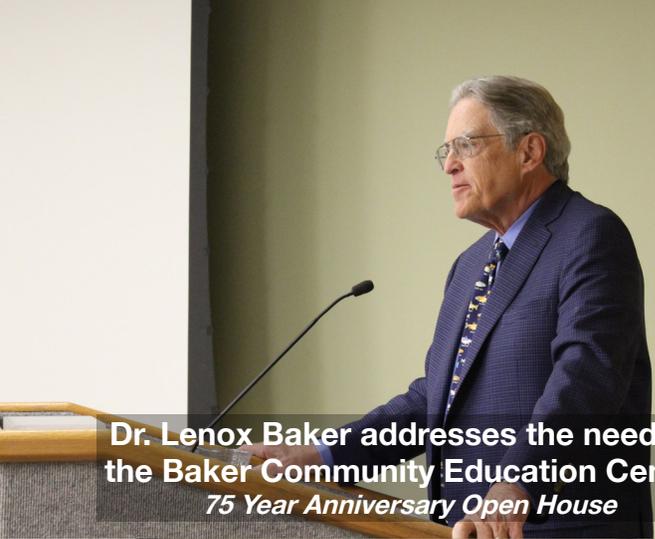

Please review the updated campus map to your right. Parking lot "A" was built for more patient access and the following entrances are where patients will want to enter for each service:

Entrance #1: Registration, Emergency Room, Gift Shop, Buffalo Bistro, Inpatient visitation, Laboratory, and Radiology Services.

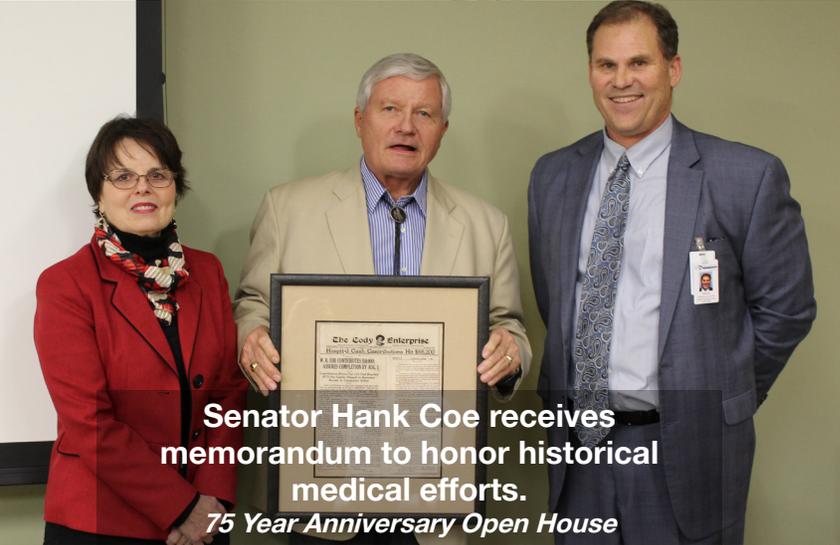

Entrance #2: Surgical Services, Out Patient visitation, Baker Community Education Center and Rehab Services

Entrance #3: Medical Records, WPH Administration, WPH Foundation, Pediatrics, Women's Health and Nursery

Entrance #4: Long Term Care

Dr. Lenox Baker addresses the need for the Baker Community Education Center.
75 Year Anniversary Open House

Senator Hank Coe receives memorandum to honor historical medical efforts.

Foundation Update

West Park Hospital Foundation's Mission is

To provide philanthropic support to West Park Hospital for programs, services and equipment to assure the highest quality of patient-centered care and enhance the quality of health in our community.

A huge thank you to the community for all your support for our *Where Buffalo Roam!* Project! From our decorated small and big buffalo to our retail store on Sheridan Avenue over the summer, with your help we raised over \$1,250,000 for this terrific project! Special thank you to Doctors Lenox and Fran Baker for their generous donation!

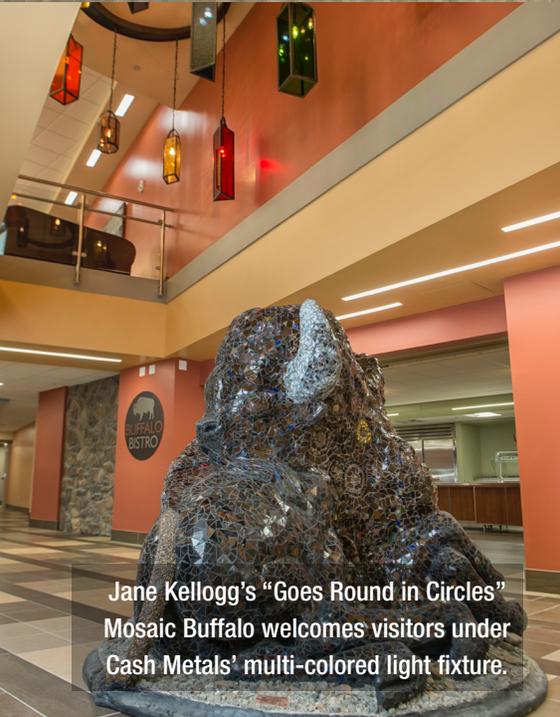

Emergency Room whiteboards funded by WPH Foundation.

ATV stretcher funded by WPH Foundation.

West Park Hospital's Baker Community Education Center is a series of conference rooms that can be used for one event or multiple breakout sessions. With state-of-the-art audio visual equipment, monitors can be placed strategically to ensure the audience can easily view presentation material.

Jane Kellogg's "Goes Round in Circles" Mosaic Buffalo welcomes visitors under Cash Metals' multi-colored light fixture.

Save the date for the July 9, 2016 "Kids are the Best Medicine" event! Look for details in February 2016.

*Until Next
Year!*
